Modern hoof protection – Why hoof Boots?

“Lameness is the most common cause of loss of use in the horse and in 80% of cases lameness is localized in the foot” - Prof. R Weller – The Royal Veterinary College

Disadvantages of iron shoes:

- No Dampening
- Restricted natural hoof movement
- Require professional installment
- Nails and nail holes
- Cost

Hoofboots for everyone? Yes, e.g.:

- for barehoof horses to protect against abrasion
- for the transition from iron shoes to barefoot
- for shod horses that have sensitive hooves

Hoofboots benefits:

- Barefoot Friendly, do not restrict or weaken the natural hoof
- They are more cost-effective over time compared to shoeing your horse
- Can be used for a variety of purposes
- Protection and comfort during training
- Can be used as a rehabilitation or therapy boot
- Easy to use

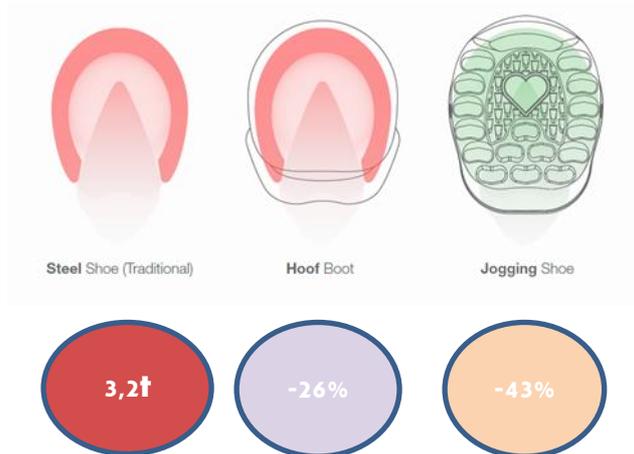

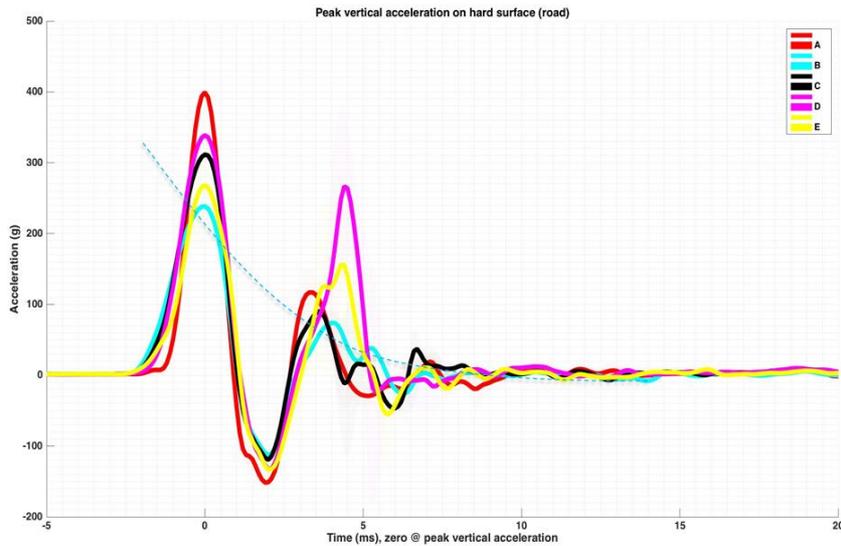

Equine Fusion Jogging Shoes:

- Improves natural hoof function
- Provides dampening and stability
- Improves blood flow and hoof growth
- Easy to use
- Wide range of sizes and models

Science:

- Equine Fusion tested together with Professor Lars Roepstorf at SLU in Sweden
- Our patented sole reduces the maximum loads on the hoof in the landing phase with 43% compared to iron shoes on gravel:

Products:

- **Active:** The Active Jogging Shoe consist of the cone locking mechanism and a heel design which enables the unrestricted natural movement of the heels, and padding in the front of the shoe for comfort. Distributed in pairs allows for a smooth inner side of the shoe with a smart lock on the outside. The slick inside is perfect for horses with a narrow gait, because it protects the hoof without restricting any movement. The sole of the Active Jogging shoe has the well-known All Terrain sole with a unique tread design which provides excellent grip with an optimal break over, great dampening and stability. It has been tested and proven to reduce the impact load on the horse.
- **Trekking:** Has all the advantages of the Active Boots plus an upper made from a breathable and quick-drying material. (separately available)
- **Pads** for additional dampng
- **Fit kit** for easy size measurement
- ➔ Available in Regular and Slim
